We may revise our intended plans time and time again, but we must at least do some planning to chart our course after graduation on plan and the course of the graduation of of the g course after graduation or plan our subjects for college.

Here at school we are provided with reliable resources on a variety of vocations. We have an oppor-tunity to listen to the advantages and disadvantages of a number of fields, to participate in question and answer sessions about each subject and then to draw our own conclusions as to its application in our particular situation.

When we are in doubt about which fields to consider because we have a number of references, there are aptitude tests which are available through the counselors' offices to help us make that primary decision — In which vocation would I be most satisfied?

Kushner, Robertson Cupp, Hyatt Win Science Search Reveal Details Of Easter Play

RECENT WINNERS in the fourteenth annual Indiana Science Talent Search were seniors Sidney Kushner and Charles Robertson, according to Woodrow Pemberton, head of the Science Department.

Last Saturday Sidney and Charles ventured into Indianapolis to compete tion along with Sindel in the finals. There were thirty aspiring young scientists in the competition along with Sidney and Charles. In the morning these boys were subjected to interviews with six doctors from various fields, ranging from physics to social studies. Most of the contestants were asked questions pertaining to their projects.

Spring Sports

WITH THE ADVENT of spring the golf, tennis, oas-oall, and track teams will step into the athletic spotlight. In the past too little interest has been devoted to the spring sports season. The athletes who participate in this program deserve the loyal support of the student body. One of the ways to increase interest and support would be to conduct pep assemblies for these various teams previous to their specific meets. Throughout the year many assemblies have encouraged spirit as well as spectator interest for the football and basketball teams.

Unfortunately, everyone's time is limited; and, spring sports represent many phases of athleties. Therefore, students should select their particular favorite; then, attend the meets faithfully and back the boys.

Even though these activities are not as celebrated or as recognized perhaps as football or basketball, they are an im-

EXPOSE'-I Gamboled In School Cafeteria!

Pictured above are two of the students arrested by THE SCHOOL SPIRIT Vice Squad after it was tipped off by an undercover agent about illicit ac-tivities going on in the school cafeteria. Below is our agent's, own story.

I STEPPED THROUGH the door into the cafeteria. Pretending to stare at a blonde in the lunchline, I edged over toward the table where I knew the game would begin, as it always did, at the signal from the husky boy sitting at the table. Still staring at the blonde in the lunchline, I quietly sat down at a table near the rear of the cafeteria. Finally the blonde in the lunchline turned around and shouted at me, "Quit staring, you slob! I know what you're thinking!"

But I wasn't - how could I be thinking about anything but the important and dangerous job before me? And then suddenly there it was - the signal. The husky boy snorted once, quivered twice and then snorted again. Immediately the boys at his table huddled around him. I arose and gamboled nonchantly toward the table. Plopping down in a chair next to the group I asked innocently, "Can I join you?" The group turned around and stared intently at me. Then the husky one, obviously the ringleader, motioned me toward him and said, "Let's go."

AS WE BEGAN our nefarious business, I noticed a monitor standing not more than 20 feet away, looking straight at us. A sickening feeling engulfed me, for I knew that if we were caught I would be punished along with the rest of them; who would believe that I was an undercover agent for THE SCHOOL SPIRIT. But then I realized that the monitor was one of them. Obviously she had been bribed, for there were bread crumbs about her mouth. Would this group of degenerates stop at nothing to perpetrate their evil?

I was brought out of my deep thought by a gruff voice: "You lost, buddy." "What?"

"You lost. You have to carry our trays up to the window." I stacked the trays silently and carried them to the front of the cafeteria. I wondered, as I put the trays down, what would become of those poor lost souls. But I knew what I must do

Library Offers Thrilling Saga Of Nile River

"THE WHITE NILE", a vivid nonfictional portrayal by Alan Moore-head of the men who explored, pil-laged, evangelized and eventually awakened the vast unexplored regions of Central Africa, is now-available in the school library, ac-cording to Mrs. Suzette McGill,

Concerned mainly with the dis-covery and exploration of the White Nile, this book reveals the true secrets and solves the greatest mysteries of the sources of the Nile, secrets and mysteries that stymied the minds of men for nearly two thousand years. It cov-ers in great detail the period of history between 1856 in the slav-ing days to the final conquest of the Nile in 1900.

CHARACTERS whose deeds have envolved into legends are depicted as they actually lived and worked. Such names as Burton, the soldier Speke, the businessman Samuel Baker and his beautiful wife, Livingston, Stanley and the "Arabian Nights" add excitement and adventure to this engrossing

"Chinese Gordon" agrees to gov-ern the Sudan for the Khedive of Egypt, and the story of his doomed Egypt, and the story of his doomen resistance at the siege of Khar-toum is told with suspense un-puralled by any of the author's previous novels. Emin, the Ger-man-Jewish scientist holds out in Equatoria, although he is confronted with primitive natives who take great pleasure in capturing and torturing white men. In many ways, Emin is the most remarkable of the heroes portraved in the book. The mere fact that he is able to survive is almost beyond belief. Mr. Moorehead's narrative is divided into four sections: the Ex-ploration; the Exploitation; the Moslem Revolt and the Christian

While Tell City was nearly a match for the Redskins, the Kokomo-Logansport game was not a battle. The Kats easily romped over Logansport. But the Kokomo Kats had more of a fight with Manual. With little more than a minute in the game they were down seven points. Three field goals and a free throw closed the gap, pushing the game into an overtime, the first since 1918.
